Title:

Comments: I urge the protection of the wilderness character of the WSA, and it's designation as a primitive area. I support an alternative version of Alternate D that would include Lake nellie Juan as well as areas purchased for wilderness restoration after the oil spill.

This area is unique and precious. As someone who loves Alaska, has visited Alaska, but that lives in the lower 48, I can't possibly express how valuable these lands are to me -- just to know they are there and unspoiled. Please provide them maximum protection.
