First name: Evan

Last name: Bordenkircher

Organization:

Title:

Comments: Myself and my family have been using this area to recreate and enjoy what alaska has to offer. This includes hunting, trapping, and hiking, and snowmachining.

By closing down this area to motorized use would restrict the ability for many to recreate and utilize our renewable resource. Access will be limited and will further cut off the ability to have a multi use forest.

This is federal land, that means it belongs to the people. All people!

Keep the forest open to all users!!
