Comments: Born and raised in Alaska i have watched more and more of alaska be taken away from us. Between land sales and population growth access is getting harder and harder as it is. I have been here almost 36 years and the alaska we have today is not what i grew up in. Alaska is all about going where you want, when you want, and how you want.. Why take that away from us and future generations ? There is already so much inaccessible land as it is and there is so little access from the road system for off-road use. We hike, we bike, we climb, we hunt, we fish, we camp, we ride 4-wheelers, and we snowmachine, we are true alaskans, we value everything Alaska has to offer and never take it for granted.. My family and I are strongly against options C & D and would never sign off on more access to be taken away. How about we take away your access to the internet to market your proposal, or that you can only walk to the courthouse to file paperwork ? You see ? We Alaskans have, do, and will continue to use the land we were born with rights to, why would we agree to have those rights taken away from us ?
