Title:

Comments: Please support a modified Alternative D wilderness recommendation. This should include Lake Nellie Juan. Please provide strong protections for all the lands of the Nellie Juan-College Fiord Wilderness Study Area. These must include restoring the protections to the lands the government was able to purchase after the 1989 oil spill. The plan should protect the wilderness character of the WSA, not just its existing character. The plan must also put into place protections from illegal use of chainsaws in the WSA.
