Comments: Please note the suggestions for improvements in the plans - those proposed by public land advocates and which seem ideal to be adopted - to me!

The proposed improvements are long & involved and I will not repeat them here. I do say that Lands should have National Park or national monument status and thus not be degraded by industry!!

I do say that the public lands should be carefully & fully protected from miners and drillers and loggers and all those selfishly wanting to profit from the land resources, without a thought or care as to the resulting damage to the ecosystem!! Thx JLangford, Huntsville, AL
