Comments: Hello,as a person who enjoys snowmobiling, skiing, biking, hiking, and boating in our state, and as one was born, raised, and still lives here. I strongly object to cutting off motorized use in our areas as much as I would oppose nnon motorized use. I choose option A out of those choices. I also object to people living outside our state having the opportunity to comment on the subject as it is plain to see they can get on the internet and drum up folks from special interest groups.
