Comments: Hi:

My comment on the forest service propose plan:

1. Protect WILDERNESS character, not just proposal to protect "existing character"...
2. Classify all the land in the WSA as "Primitive" standard to maintain the wilderness character-1.9 million acre, Nellie Juan-College Fiord wilderness.
3. Restore strong protection to the land and managed in "perpetuity" for conservation and wilderness purposes as "Promised" when purchased with our tax dollar. Wilderness character exemplify the land the WAY GOD created it.
4. Address illegal recreation use of chainsaw use in the WSA...We need our trees for fresh oxygen to breathe and climate control/
5. Alternative D is the best, it recommends maximum amount of land for wilderness of any of the alternatives, 97% of WSA or 1.884 million acres. I support Alternative D with recommendation that also include Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the Exxon oil spill.....lakes should always be included as "wilderness" to protect against human pollution.

thank you
