Comments: I would like to maintain the land and areas that we now have for motorized use. I grew up riding snowmachining, snowboarding, dirt biking, hunting and fishing. This is why I still live in the state. I love the freedom that the chugach forest provides. I want to be able to show my children thenolaces I used to ride and play and be able to take them there so they can experience the same things. Please fight to keep these areas Open for motorized vechicle so the chugach can continue to be enjoyed by he public and generations to come
