Comments: I ask you for the following changes to the current proposed Forest Plan:

The Plan should protect the "wilderness character" of the WSA, not the Forest Service's weak proposal to protect just its "existing character." Furthermore, the Plan must protect the wilderness character of the lands in the WSA by classifying all of them with the Forest Service's "Primitive" standard, which is the most protective standard in the agency's recreational classification system.

Alternative D recommends the maximum amount of land for Wilderness of any of the Alternatives (97 percent of the WSA, or 1.884 million acres). I support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill.
