Title:

Comments: Dear Forest Service,

I am writing to request that the Management Plan of the WSA protect the wilderness character of the region, not just the existing character. The plan should also address the illegal use of chainsaws within the WSA, and the Plan should protect the wilderness character of the lands in the WSA by classifying all of them with the Forest Service's "Primitive" standard. The Plan should also restore strong protection to the lands within the WSA that the federal government purchased following the Exxon Valdez spill, which were acquired for the restoration of wilderness values and to be managed "in perpetuity for conservation and wilderness purposes," as stated and promised when they were purchased.

Thanks you for your time and consideration.

Sincerely

Justin Lotak
