Comments: Greed and the total lack of respect for OUR Environment, (which includes, Ancient Forests, Public Lands, National Parks and National Monuments), needs to stop NOW. We ALL need to come together and save OUR Environment and Wildlife and if we all come together with some sane solutions we can SAVE ourselves at the same time. We ALL need to nurture OUR Nature in order for it to survive and thrive! Listen to the Alaskan Tribes and the Citizens who want to protect this region. Enough destruction!!!
