Title:

Comments: Wilderness is needed and needs to be preserved. These lands should be designated as "primitive" and protected and maintained to be as wild as possible. This includes the land purchased in 1989 following the Exxon Valdez oil spill. Protecting land in perpetuity for wilderness purposes means protecting them from illegal recreational use (and chainsaws).

I support Alternative D, which recommends the maximum amount of land for Wilderness. I support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill.
