Title:

Comments: We need to restore strong protections to the lands within the WSA that the federal government purchased following the 1989 Exxon Valdez oil spill. These lands were acquired for the restoration of wilderness values and NEED be managed "in perpetuity for conservation and wilderness purposes," as promised when they were purchased.

The Chugach NF NEEDS to tackle the ongoing illegal recreational use of chainsaws in the WSA, which has resulted in damaging tree removal along dozens of wilderness beaches, including in sensitive areas.
