Comments: I am concerned about the forest plan "revision". I have a few points:

- * any plan you develop must protect the true wilderness character of the Nellie Juan-College Fiord WSA.
- * You must commit to restoring strong protection to the lands within the entire wilderness study area.
- * The lands must be managed for conservation and wilderness purposes AS PROMISED!
- * You must address the illegal use of chainsaws within the WSA.
- * I personally support a modified Alternative D wilderness recommendation plan that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the 1989 Exxon Valdez oil spill.
