First name: James &quot;Jeff&quot;

Last name: Hetrick

Organization:

Title:

Comments: I prefer Alternative A- No Action. I am against expanding the Nellie Juan Wilderness Study Area. There is no reason to expand this area It is already protected by inaccessibility and geography. I am for more access to Forest Service Lands not less. I don't like seeing gates and closures such as Palmer Creek and the gravel pits in Moose Pass.

My second choice would be Alternative B. It seems to be favored by the motorized winter group.
