Title:

Comments: I have used Chugach state park trails and land off and on through out the last 10 years that I have lived here for camping, backpacking and snomachining, my kids are coming of age to be able to accompany me out there. Would like to see the trails currently open stay open and maybe more trails opened in the future. Snow machining also has benefits for the local economy especially in the winter from vehicle and trailer parts sales to clothing stores fuel stations and so on.
