Title:

Comments: I'm a life long resident born and raised near the talkeetna mountain range were is still reside. Back country is a huge part of my life that I have been accessing my entire life by motorized use at all times of the year. We need to keep all public land open for all users! Motorized and non-motorized Open for ALL!! These people that move in here and think they are going to lock up our land and change the way we true Alaskans live are out of there minds! We will fight to the very end before we give up our right in any way shape or form on how we have spent our entire lives or the ability to access our land in whatever means we choose to do so!
