First name: Herbert

Last name: Mann

Organization:

Title:

Comments: Please do not change the designation status of Nellie Juan River, Upper Russian River, Snow River, and Portage Creek. These areas are used as recreational areas for many different groups and should remain this way. By changing the designation it looks like an attack is being made towards any motorized equipment. i.e. Snowmobiles, Airplanes and Boats. Targeting by specific groups to change this designation could be construed bias towards these groups.

I am a Airplane Owner and Pilot, Snow Machine and Boater and would like continue to have access to these areas.

Access should not be restricted to a smaller user group.

Please do not change the designation status of Nellie Juan River, Upper Russian River, Snow River, and Portage Creek. They should remain as an Recreation Areas.
