Title:

Comments: I have spent a number of days in the backcountry of the Chugach range. It is home to some of the greatest exploration this country has to offer. As an avid snowmobiler and outdoors enthusiast, I support Plan B. This area is home to many of those who enjoy making memories with their families and their friends while participating in multiple outdoor activities.

Please take a minute to think of our posterity that will have their future of making memories as well. If Plan C or D go into effect, then it will take many Alaskans out of the areas that are enjoyed and relied upon so heavily for outdoor recreation, hunting, and fishing; essentially some's primary source of living.

This is America! And I'm a Public Land Owner!
