Comments: To whom this may concern,

I am in support of keeping this area open to multiple used travel including snowmobiles, dirt bikes, and mountain bikes. These activities allow me to access places in the back country That I couldn't otherwise get to regardless of the time of year. Access to our public lands is dwindling by the day. Wilderness areas And national parks have been established for people that do not want to participate in motorized or mechanized travel. I do not believe that every square inch of our public lands needs To be protected with the status. I hope you consider the economic impact of tourism that these activities bring to these areas as well. I am highly opposed to sharing this beautiful area down and restricting it any farther.

Chris Tracy
