First name: Frederick

Last name: French

Organization:

Title:

Comments: Hello, my name is Frederick French and I am a snowmobiler, outdoor advocate, camper, hunter, and fisherman, in other words I use the outdoors a lot. I would like to voice my strong opinion against any restrictions to motorized vehicles in the Chugach national Forest. This is our land for all the people to use. It is not land that should be sequestered away on a shelf for only those very few who decide to hike in an actually use the land. Through proper management and advocacy, motorized vehicles can safely and without damage, operate in these lands. I have snowmobiled in Alaska and in the Chugach while I was a military member stationed at Elmendorf Air Force Base for many years. My money that I spend on these activities strengthens local communities on a regular basis. I would like to close by saying I am strongly opposed to the government limiting my lands and telling me what I can and cannot do in my land.
