Last name: Parr

Organization:

Title:

Comments: I have and plan on continuing to play in the back country. I'm old enough to remember all the access we used to have . For example back in the early nineties ever year they switch sides of the road you were allowed to play in.. I also live in Anchorage and play all along the hillsend glen alps and even as far north as Eklutna. My daughter is still young and we spend as much time as possible outside. Even though I'm not currently snowmobiling at the moment I hope to one day rerun back to Turnagain pass with my own daughter. Some of the best memories were biking and hiking on the Kenai,peninsula .please don't strip away more land rights to people who truly love the Chugach . We should encourage more people to get out side and enjoy life.
