Comments: I strongly oppose any more land being shut down in the Chugach National forest to motorized access. I ride my snowmachine at Turnagain Pass and Placier River area with hopes to get to Lost Lake this year and for years to come. I don't utilize this areas when they are shutdown do to low snow which has been more often lately.

Modern Snowmachines are quieter and fuel efficient. I support local businesses when I travel from the Matsu Valley (fuel and food.) I enjoy the wilderness of Alaska and I can utilize and view vastly more area on a snowmachine than any other way.
