Comments: I dont ride as much as I use to, but I do need to advocate for future generations. Living in Alaska can be brutal, but outdoor activities are key to enjoying life in AK. Its hard enough to find areas to ride the way winters have been so eliminating areas to users is outrageous. Please understand our users are aware of taking care of the few places available. We need somw freedom don't take it away. If anything add some new areas. God Bless!
