Comments: I do not support any plan the restricts motorized sports in the CNF. I live in a area that borders the park and a majority of the foot traffic I see trying to access the park by way of the local access point for our neighborhood are rude and have no regard for rules but just for their own benefit. I was at the meeting 20 years ago (for another CNF plan)that was held at the lousac library and the reasons given by those that wanted motorized use closed were laughable at best. Nothing but selfish reasoning. We all pay and care for the park , we should all be able to share the park. Thanks for your time
