Comments: Dear Forest Service,

I am calling on you to further protect the so called wilderness character of these lands in the WSA by classifying all of them with the Forest Service's "Primitive" standard. This is the most protective standard in your agency's recreational classification system.

Please restore strong protections to the lands within the WSA that the federal government purchased following the 1989 Exxon Valdez oil spill. These lands must be managed in perpetuity for conservation wilderness purposes as promised.

Please address illegal recreational use of chainsaws in the WSA where damaging tree removal along beaches has occurred.

I support a modified Alternative D = that includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness following the oil spill.

Thank you!

Bonnie MacRaith
