Title:

Comments: I am a proud Alaska resident, a 17 year military vet, and a frequent visitor to the CNF area. I represent the CNF because the CNF is my back yard and it's the reason I believe this land is worth fighting for. Motorized access to the CNF is the reason I live in Alaska. I'm not going to spit sentence fragments at you to beg for access to land I already have rights to have access to! Restricting my right or any other Alaskans right to their own back yard is not right. Believe it or not, snow machiners/hunters/4 wheeler riders/ do more maintenance and pick up more trash/take care of more animals than you think. Just because we don't write a blog or take pictures with our \$1000 cell phones about it doesn't mean we don't do it. We take care of our own. We don't need trophy or recognition or pat on the back for doing what's right. It's EVERYONES right to have access... if you do anything give us access to everything, because that's what we deserve.
