Title:

Comments: I was born and raised in Alaska and have accessed the Chugach National Forest since I was young. I have spent countless days exploring the CNF in my own back yard. In my youth I enjoyed the CNF on a set of skis with my dad. I shared the CNF with motorized users and used their trails to access the backcountry. As I got older I explored further into the backcountry when I was able to afford a snowmachine. I oppose limiting motorized access to the CNF and support motorized access expansion. Of the proposed plans I support plan B. Thank you for your consideration and please feel free to contact me with any questions.

Mike
