Comments: To Whom It May Concern:

I am a long time Alaskan resident and have spent many years snow machining all over the state with our kids. We enjoyed spending time with our kids and teaching them about the outdoors snow machining, hunting, 4 wheeling and fishing.

There seems to be more than enough land in the CNF for all of us to get to be able to enjoy our way of life we have chosen to live.

I see no reason to take more land away from the motorized sports people.

I truly believe these activities we have been able to enjoy with our kids and many of their friends have kept many kids out of drugs and lots of trouble. They have come to love the sport so much so that they have earned the privilege of getting to go and do what they love to do and if you start taking the land away from them they will have to find other places to ride and they will be getting into trouble because it most likely won't be a place set aside for them.

Please be fair to all people that want to share the land so they may all get along.
