Comments: Hello gents

A born and raised Alaskan here, raised in the woods using snowmobiles were a part of my normal life. Fast forward I have 2 boys Hatcher and Elias, if that's not Alaskan dedication I don't know what is, it's nearing the end of October and my 6 and 4 year old are not bugging me about new video games or even costumes. They are bugging me because they see the mountains turning white and are wondering why we can't get on the sleds and go ride into the mountains. See taking my family; wife, children 60 plus old parents and others is just not an option with skis or snowshoes. Everyone should get a right for access. Please choose option b
