Comments: My name is Jesse Atkinson.

First off, thank you for your efforts and willingness to include all user groups in the Chugach Forest Service Revision Plan.

I currently live in Wasilla and yentna river mile 22 rebels roost lodge, and have been living in Alaska for 10 years. I have enjoyed riding snowmachines in the Chugach for 3 years,among many other places and I typically ride as many times as posible in a year. As a motorized user, and 20 year power sports mechanic in a local shop. I oppose losing any right to motorized access of these public lands. A large majority of the Chugach is already restricted to non-motorized use, and what's left shall remain intact, if not expanded, for future generations and the new riders of the industry I work in.

The areas I access the forest are: Whittier

The rights of motorized user groups have diminished since 2002 when The National Forest Service initiated the Forest Land Management Plan and it must stop.

Please consider leaving the current access in place and work toward opening more areas for future generations.

Thank you,
Jesse
