Title:

Comments: We need a plan that will protect the "wilderness character" of the WSA or it won't be able to remain as wilderness as it should be. This is why we need the most protective standard of "Primitive."

No recreational use of chainsaws is just part of the protections to assure management in accordance with the "in perpetuity for conservation and wilderness purposes," as promised when they were purchased because the lands were purchased for restoration of "wilderness" after the Valdez oil spill.

Therefore, I support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary.
