Title:

Comments: I started riding snowmobiles in Cantwell 3 years ago and since then I witnessed many people who want to influence others to help keep our environment clean and take care of each other. Without groups like snow shredders I personally believe I would not be here today. I've rode in turn again pass, Eureka, trappers creek, and Cantwell areas and experienced the same peace from riding my snowmobile. I'm just learning to ride in breath taking terrain and would love to past on the excitement and passion for the sport to future generations.
