Title:

Comments: Hi my name is Johnny and I've lived here in Anchorage Alaska for 46 years. Back in 1977 my dad bought his first snowmachine. It was a 1977 Arctic Cat Cheetah 4000. I thought it was the fastest thing I've ever rode. Back in the 80's we were able to ride snowmachines around the Anchorage bowl. And just like what their trying to do now, they did back then, they took areas away from us to ride. I can remember the days when my dad brought me out ride riding, playing on the snow. It was the best time. Now I have children and I also take them out riding to the Turnagain Pass Area and they too love it!! So I hate any plans of them taking more area from us to enjoy our state and what it gives us!!!!
