Comments: To the US Forest service thanks for the opportunity to voice my comment I've grow up riding the backcountry from lost lake to Petersvill and I've enjoyed every trip the me my family and friend have taken in this wonderful state of OURS it would be a shame it some of that wonder riding area is taken away for us moterised users there are only so manny placed the we are able to ride and if you take this away from us other areas will be overused so I feel it's important to have several areas to access for recreation in this wonderful state of ours thanks for your time
