Title:

Comments: I am a life long Alaskan married to a life long Alaskan with four Alaskan children that all value our Alaskan constitutional rights that provide for Alaskans the best use of the states resources for Alaskans

I can't understand why influence from other states or groups should have any influence on the use we Alaskans see fit for our lands should be considered at all.

I want our lands to be responsibly used for logging,mining,fishing,hiking, boating,Atv and utv use,hiking, snowmachining, and all of the other uses that we Alaskans hold dear to our hearts.

Please don't let outside influence guide choices that conflict with alaska constitution and ruin the Alaska we have grown up with for my children.
