First name: Eric

Last name: Phillips

Organization:

Title:

Comments: I moved to this great state in 1998 to ski the chugach. Since then i have three children who have been raised in the chugach skin, snowmachining, hunting , fishing, hiking, fourwheeling, ect. Almost everything we do requires a motorized vehicle for access. We love to just go snowmachining . But if we decide its a ski day our snowmachines bring us to the goods. Restricting any more areas from motorized use would be devastating to our responsible use of our favorite recreational areas. From reading the information option B looks the best .

Thankyou Eric Phillips
