Comments: hello. ive lived in Alaska all my life and I found out recently about this land change proposal of the chugach national forest and I gotta say its scary to think the great state of Alaska would propose to shut this national park down to any recreational activities. im here to ask that you please don't. I would like this stay available to the public for motorized and non motorized use. as a avid snow machine and atv rider this stops me and my family from seeing and exploring this great state through this national forest. I want my children and my grand-children to be able to enjoy this awesome place as I have for many years. thank you
