Comments: I have lived here in Alaska sence 1973. I love getting out in to Alaska's back country and go pretty much anywhere on snowmachine/4wheeler. Don't restrict it for us that's not fair to anyone!! We should all be able to as adults,let both side use it and use it just like any others group This is one reason I love it here. We did have as much red tape as they do in the 48. Don't make this just for a collect group to use. We have a right to use the land as much as the next guy. Don't take that away from us.
