Comments: I am strongly opposed to any revision of to the Chugach National Forest motorized access areas. So many live here so we CAN use outdoors, no matter their choice of recreation. DO NOT let people who DO NOT live here and recreate here choose for us the best way to enjoy OUR backyard. Whether I am hiking or riding, I thoroughly enjoy getting out there with friends and family to use these areas. Limiting the access to the areas will only congest, increase pressure, and cause more conflict to other popular areas leading to more "REVISIONS". In fact, I'd like to see revisions which open more areas of forest land for motorized access. I am an avid user of much of the proposed areas, I am strongly opposed to CNF revision plan options C and D. MAKE ALASKA GREAT AGAIN!!!!
