Comments: I am in favor of motorized use in these areas! I move to Alaska in 1977, I was seven years old. I think I first got to ride a snowmachine when I was 10. I was hooked from day one! I am now a father of two boys ages 11 and 12. And they have been riding since they were one and two! They are so excited for snow this year! They got new machines! Taking these areas away makes no sense. A lot of lives and livelihoods will be affected if that happens..
