Title:

Comments: Protect the wilderness character of the WSA, not just it's so-called "existing character." Protect the lands within the WSA that were purchased by the federal government after the EXXON Valdez oil spill, in perpetuity and for wilderness purposes, as envisioned and promised when these lands were purchased. These lands BELONG to the people of the USA, not for uses or purposes other than wilderness. I support MODIFIED Alternative D wilderness recommendations that include AL lands within the WSA boundary, that include Lake Nellie Juan, and are to be used for wilderness restoration following that Valdez disastrous oil spill.
