Comments: As an Alaska resident for my entire life and a long time user of the Chugach national forest for recreational snowmobile use it would be a shame to lose the privilege of being able to use motorized vehicles in any part of the forest. I couldn't possibly count all the great memories made there with family and friends. The areas i most use are Lost lake and Nelly Juan. Keep the areas open to use so we can all enjoy the fun and the escape that the national forest offers.
