Comments: Hello, as an avid user of the Chugach National Forest, by snowmobile, atv, utv, on foot, by bicycle, or any other means, I am extremely grateful for the access I am granted to use these lands. Limiting and or restricting my access to the forest would be extremely detrimental to my way of life here in Alaska. I hope the forest service take everything into consideration when determining the correct actions to take when making there final revision. I thank you for your time! Trevor
