Title:

Comments: Born and raised here in anchorage, I am 27 years of age and I have been recreating in the chugach for as long as I can remember. I am more than thankful to have been raised in an area where I can enjoy such natural beauty. Below I will explain why I choose to go with plan b and hopefully with the possibility of seeing more terrain to be opened in the future.

The landscape here is out of this world, Snowmobiling has not only changed my life, but it has helped me to enjoy some of the most amazing views a man could ever lay eyes on. We are blessed! And the snowboarding is alright too:)

I have been hiking in the chugach for over 10 years. When I have time in the summer, I like to explore new hiking trails throughout Turnagain arm, Johnson's pass, and many more. Every year, late November. We start out with a good old hike up Tincan, Turnagain Pass. I have hiked there for a very long time before I owned a snowmobile. Having the opportunity to explore areas such as placer river, Skookum, Johnson's pass, lost lake and many more via snowmobile access has moulded who I am and how I live today. I know I want to live here the rest of my life.

I hope I have the privilege to see these areas open for many many years to come, and for future generations to enjoy as well. Thank you for your time,

Will Morrison
