Comments: To whom it may concern,

I George Tibbetts am in favor of motorized vehicles in the chugach park. My family has been riding for years and have been very respectful of the resource. I see no reason why motorized vehicles should not be allowed. It's a valuable resource that should be allowed to all. If you have any questions please contact me at my email or my cell phone. 907-227-3686. Thank you
