Comments: Hello my name is Tom, I was born and raised in this gorgeous state and I will never leave. And one of the main reasons why I would never leave is because I get to enjoy and appreciate what this state has to offer. Our number one thing we all love to do as Alaskans is to get out and ride snowmobiles during the long winter months, it's what gets us through. There is no better way to describe winter than enjoying it with family or friends on a snowmobile. Now however the zones we ride are full of excitement, beautiful views, and of course good times! I live in Fairbanks in the interior of course, but make a lot of trips down to CNF and get to enjoy our times together with friends and family that have either moved from Fairbanks or live down south. For this to be swept away from all of us as Alaskans would be devastating, no more winter activity, no more enjoyment, and for sure no more riding and doing what we all love to do with family or friends. Please don't take it away! Keep our memories rolling for not only just us but for the young as well! Thank you!
