Title:

Comments: I support Alternative D which allows for 97% of land for Wilderness. I also support a plan which includes Lake Nellie Juan and the lands within the Wilderness Study Area which were purchased for restoration of wilderness after the oil spill. A wilderness study area requires a wilderness to study, not an area where recreational vehicles, chain saws, and other possible destructive human behaviors are allowed to affect natural processes. I strongly urge that the wilderness areas be managed "in perpetuity for conservation and wilderness purposes" particularly the WSA as was promised when it was purchased.
