Comments: I am very concerned about the protection of this forest. I urge you to protect this as a 'wilderness' that meets the 'Primitive' standard as defined by the Forest Service. Strong protections are also needed for the land purchased after the Exxon Valdez oil spill. This land also needs to be maintained as wilderness.

I am also very disturbed that chainsaws are being used in these lands. This must be stopped immediately.

There are very few natural resources like this, and we must do all we can to protect them for future generations and for their part in the natural ecosystem and as much needed wildlife habitat.

Thank you.
