Title:

Comments: I support alternate D for establishing the Nellie Juan region as wilderness and do so without reservation. having spent marvelous time there and respecting the nature and value of the area, it is wholly deserving of wilderness status and protection. As location of the greatest concentration of tidewater glaciers in the world, it is a treasure beyond measure. And more , it is unsurpassed in temperate rain forest beauty.

Thank you for this opportunity to comment.

The creation of the wilderness area for the Western Prince William Sound is worthy and overdue as well. Please act to protect this worthy area for wilderness.

Richard Seifert
